Bloodsuckers rejoice! SyFy show *Van Helsing* has been a smash hit with Netflix audiences and that trend will look to continue with the release of season 3 in the near future. But when exactly can we expect to see season 3 of *Van Helsing* streaming on Netflix? Here's what you need to know.

Instead of following the tale of Bram Stoker's Abraham Van Helsing vs Dracula, the show instead centers around Abraham's descendant Vanessa Van Helsing. Most of the known world is taken over by vampires after the supervolcano in Yellowstone erupts. The world is sent into an ash winter allowing all the hiding vampires safety from the sun.

The show began on Syfy back in 2016 with new seasons every year since.

What To Expect From Season 3 of Van Helsing

As Vanessa wakes from her coma we will see what mutation has happened that caused her eyes to change to its red state. Is Vanessa succumbing to the vampire virus or is she mutating into the ultimate vampire-killing machine? With the Elder bound to them, the Van Helsing sisters will be on the hunt for the remaining vampire Elders to stop the Dark One from awakening.

After trying to kill himself to get his revenge on Sam, Mohammed was sadly turned by Sam into a vampire. Sam will definitely be a bad influence on Mohammed and will most likely bring out the worst in Mohammed's through his new vampire instincts. We can expect to see a trail of carnage in their wake as they tear through the North West.

When is Season 3 of Van Helsing coming to Netflix US?

The latest seasons of *Van Helsing* usually release on Netflix a month before SyFy airs the next season on their network. This has served as a great way for SyFy to advertise their upcoming seasons but not great for fans as they have to wait a year between releases.

It's now been confirmed that **Van Helsing season 3 is coming to Netflix in the United States on August 27th** which is a day before *The Good Place* season 3 arrives.
